

UNITISED HUB

3 YEAR
1,000,000 KM
WARRANTY

SPECIFICATIONS:

CAPACITY

11.5 tonne

BENEFITS:

- Customer specific, ready to mount and low maintenance system solutions
- No adjustment, lubrication and sealed for life
- Service life expectations exceed one million kilometers
- Easy, reliable and cost effective
- Cuts maintenance cost by eliminating the need to remove, replace, re-lubricate, and reset bearings and seals
- Factory assembled to precise tolerances

FEATURES:

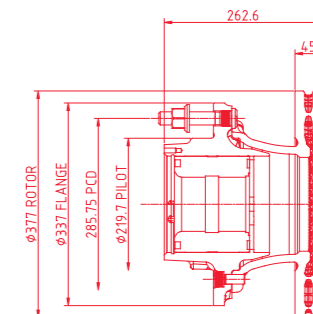

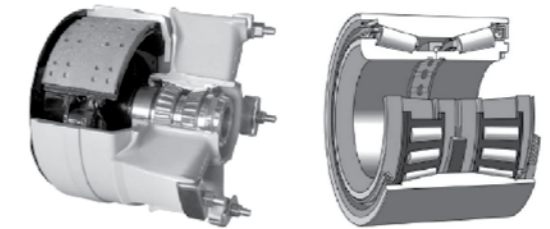

- Sealed for life
- No adjustment or lubrication needed
- Factory assembled
- Precise tolerances
- Advanced sealing supplied by Chicago Rawhide
- No bearing adjustments
- Factory bearing adjustment to +/- 0.001"
- Extended wheel-end life
- Savings to maintenance costs
- Axle track: 1850mm & 1820mm

The **K Hitch** Unitised hub for low maintenance trailer bearings

The K Hitch **UNITISED HUBS** are fully integrated. Factory assembled to reduce wheel end maintenance to a simple periodic inspection.

	DISC	DRUM
8 stud 275 PCD	•	•
10 stud 285 PCD	•	•
10 stud 335 PCD	•	•
5 spoke spider	•	•

Clearance is immensely important to bearing life - too much or too little preload, even as much as a few thousands-of-an-inch, can dramatically affect bearing life and seal performance.

Don't let incorrect bearing adjustments reduce the life of your equipment.
